A new program was created during the revision of the Signature Edition of Reading Mastery entitled *Transition*. *Transition* was created as a response to students hitting the wall early in RM III and as an alternative to repeating lessons.

Transition is 35 lessons long. The lessons were extracted and adapted from the Horizons/Journeys program. These stories do not appear anywhere else in the RM sequence. 7 of the story-series are based on the story grammar and characters from Reasoning and Writing A and B (Sweetie the cat; the Bragging Rats; Molly and Bleep; Dot and Dud; Goober; Rolla). The passages students read in *Transition* are 100% decodable for students who have been through RM II. *Transition* is a perfect vehicle for providing students with additional decoding and comprehension practice before moving on to RMIII.
